For information by e-mail: Carolyn@RashTeam.com

This extraordinary home has a water view! The 18x24 stick-built addition was added in 2007. You'll love the cathedral ceilings, the 800 square feet of decking, and the covered back porch with the bay view. New appliances, berber carpet, track lighting, 10 x 10 shed, ceiling fans, too many more upgrades to mention. The A/C unit is only a year old and a Sanyo unit services the addition. Don't hesitate to see this one! Ready to take a look? Go to RashTeam.com where we've posted 70 pictures of what could be your next home, then call me at 302-632-0183 for your showing.
